industry for a long time. Those are the songs I love best. I can't wait to show you.

**A**fter "Dream Goes On" and the concerts, the way to what I want to achieve, my goal, still looks far away. However, if I look from another side, I've done pretty okay. I'm content with what I can do. I expect that more people will listen to and love my music, and that's why I'm far, far away.

I'm grateful for many things. This never changes. Without your and other people's help and appreciation of my music, I'd never have been heard.

**R**ecall, is also a collection of my work over decades. It's hard to believe that I have been in music

**D**o La Do La is such a particular song. It's sung by Bunun tribe in Bunun language, my mother's mother tongue. It's Talalog, some what close to it.

Though it may not be 100% like the Tagalog language, it's primarily alike from history. The language is the Taiwanese

aboriginal language of the Bunun tribe in the mountains which is my mom's mother tongue.

Please refer below pages.

# Save My Soul

This time I feel my world is ending.  
I can't see anything in front of me.  
Yes my heart is dead at this minute and  
And my soul disappears in the place I can't see.

I can't erase memory of your face.  
I can't control anguish inside of me.  
All these, oh, happened a sorrow story.  
Like a hole, like a hell, swallowing me.

Oh God! Please look at me.  
My soul has disappeared.  
Please hold my hand.  
I want my life.  
Oh God! Save my Soul.

I can't erase memory of your face.  
I can't control anguish inside of me.  
All these, oh, happened a sorrow story.  
Like a hole, like a hell, swallowing me.

I can't erase memory of your face.  
I can't control anguish inside of me.  
All these, oh, happened a sorrow story.  
Like a hole, like a hell, swallowing me.

I can't erase memory of your face.  
I can't control anguish inside of me.

*It's a dramatic musical. It took months to write the song and months to record it. I've made quite a few versions of it since the demo. Enjoy it.*

All these, oh, happened a sorrow story.  
Like a hole, like a hell, swallowing me.

Oh God! Please look at me.  
My soul has disappeared.  
Please hold my hand.  
I want my life.  
Oh God! Save my Soul.

This time I feel my world is ending.  
I can't see anything in front of me.  
Yes my heart is dead at this minute and  
And my soul disappears in the place I can't see.

# Eyes With Fear

Always drunk and always angry  
His range is full of lies  
Whatever's wrong he blames on her  
There's nowhere she can hide  
In this godforsaken place

Her hands are cold her face is pale  
It's summer but she shivers  
Counts the scars within her heart  
Her tears, they flow like rivers  
In this godforsaken place

The eyes with fear what can we do  
How shall we stop the madness  
The eyes with fear their hopes are few  
Her hell is rich with sadness

At last she cannot stand the pain  
Her heart fills with defiance  
And when that drunken man returns  
The house is full of silence  
In this godforsaken place

The eyes with fear what can we do  
How shall we stop the madness  
The eyes with fear their hopes are few  
Her hell is rich with sadness

The eyes with fear what can we do  
How shall we stop the madness  
The eyes with fear their hopes are few  
Her hell is rich with sadness

# Jesus Is Love

We're drifters looking for peace of mind.  
We're warriors, eager for justice.  
Fighting for lives, for living, for love, and singing harmony in the universe.  
Go around the world with hope and love.  
Pray for joy, the heavenly father.

God leads us to the right path.  
Take away from us temptation all around.  
Bright future, joyful laughter, we're family in Christ, the globe.

The Holy Spirit cleans all sins.  
Oh, lord, almighty forever.

We're a family in love, family in Christ.  
Yahushua is love.

# This Song For You

I sing this song for you.  
I appreciate you treat me so true.  
You help me when I need a hand.  
You teach me when I don't understand.  
You tell everything from my heart.  
Your faith is my great support.  
Oh! My friends, how lucky I am.  
I will cherish you till the end.

My address is on your desk.  
My phone number I know you have.  
When you miss me whether you're anywhere, get on internet we meet there.  
I will cherish you till the end.

Thanks for everything you've done for me.  
I'll remember the days we shared.  
One day you know I've to leave but now I want to use my whole heart to sing this song for you.

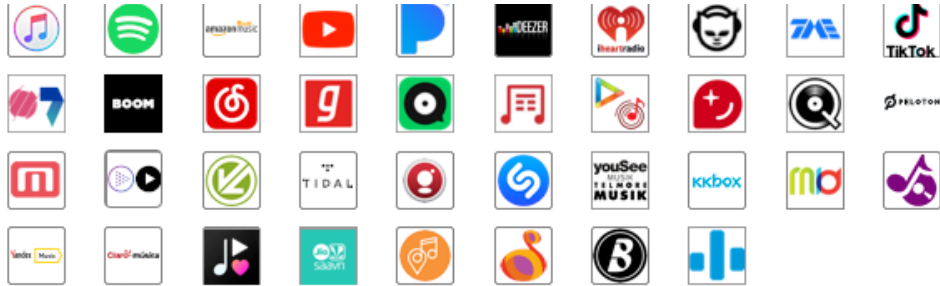

For you, my friends.

My address is on your desk.  
My phone number I know you have.  
When you miss me whether you're anywhere, get on internet we meet you.  
I will cherish you till the end.

Thanks for everything you've done for me.  
I'll remember the days we shared.  
One day you know I've to leave but now I want to use my whole heart to sing this song for you.

I sing this song for you.
